

# Usability Test Plan

## PLAN OUTLINE

- **Scope:** Test functionality of Vocab App to ensure users can access new vocabulary, upload references and track overall learning progress
- **Schedule:** Annie - 11/24 via zoom; David - 11/24 in person; Grady - 12/1 via zoom
- **Sessions:** Each session will be approximately 10 minutes
- **Equipment:** All testers will be using their own devices and a link to the prototype through Marvel. No sessions will be recorded and notes will be taken on a computer notepad
- **Metrics:** To be quantified using the Jakob Nielsen error severity rating scale

## DIRECT TASKS

- 1. Sign in and reference new word of the day
- 2. Upload original sentence for additional learning
- 3. Update word of the day preferences
- 4. Review prior word of the day entry to add new comment
- 5. View current stats of learning progress
- 6. Update targets for goal tracking
